UI/UX Design

Portfolio

Derryl Junior

Hi 🙋

Im Derryl Junior
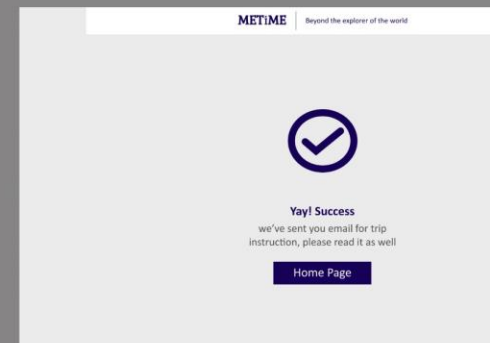

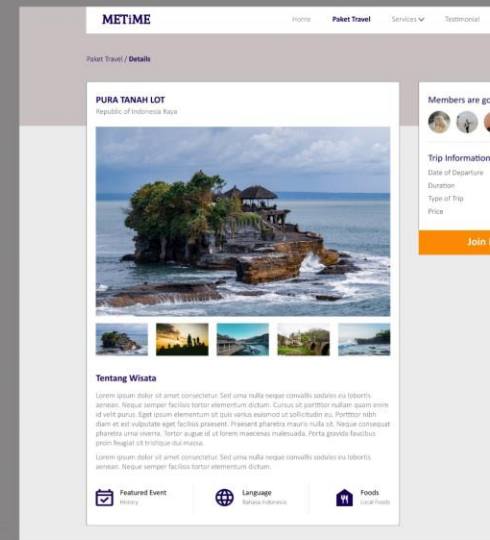

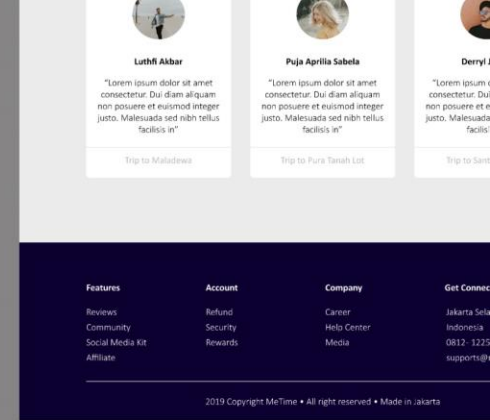

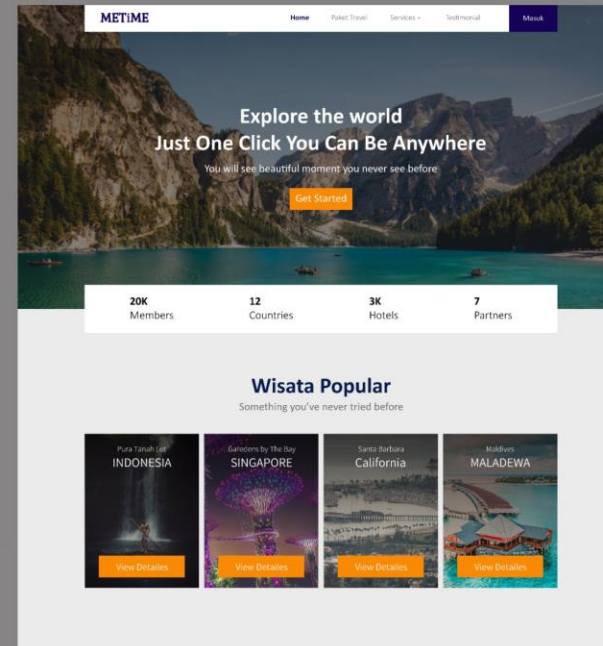

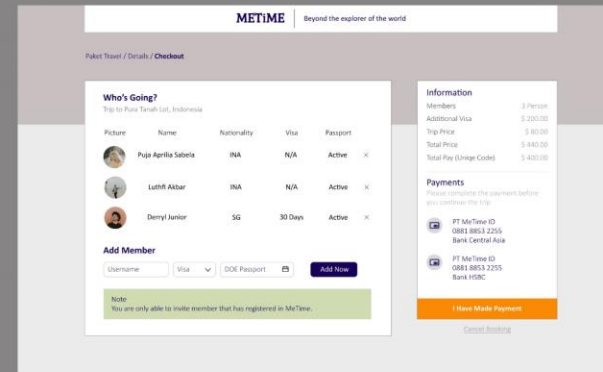

As a junior UI/UX designer, I utilize Figma, Photoshop, and Whimsical, along with other tools, for my design work.

MeTime

2021 - Website

This is project from an online course
(buildwithangga.com)

MeTime is web design which offers an online platform where users can customize their travel packages comprising of flight tickets, hotel reservations as well as visas.
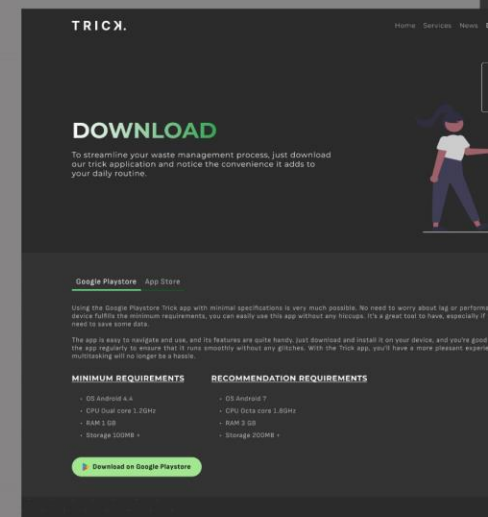

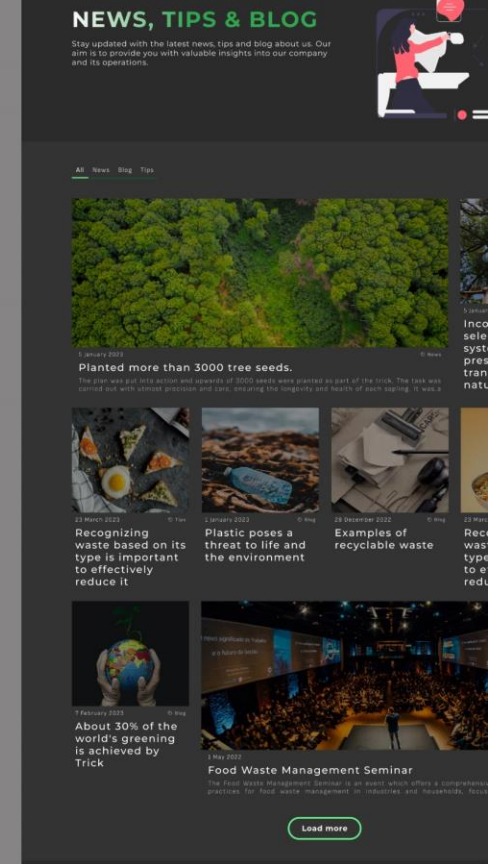

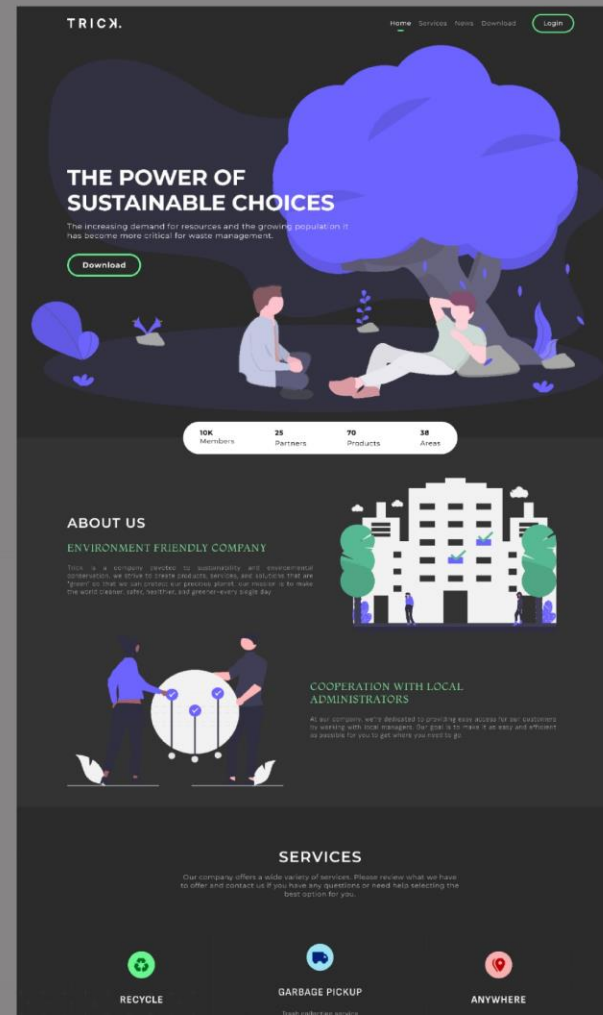

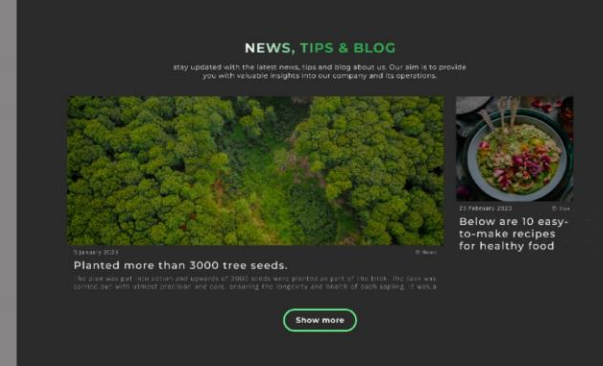

TRICK

2023 - Website

This is dummy project

Trick is a web design that focuses on environment protection. The web design offers various products and services that are "recycled." Trick re-uses and re-purposes the discarded materials and turns them into practical and attractive products.
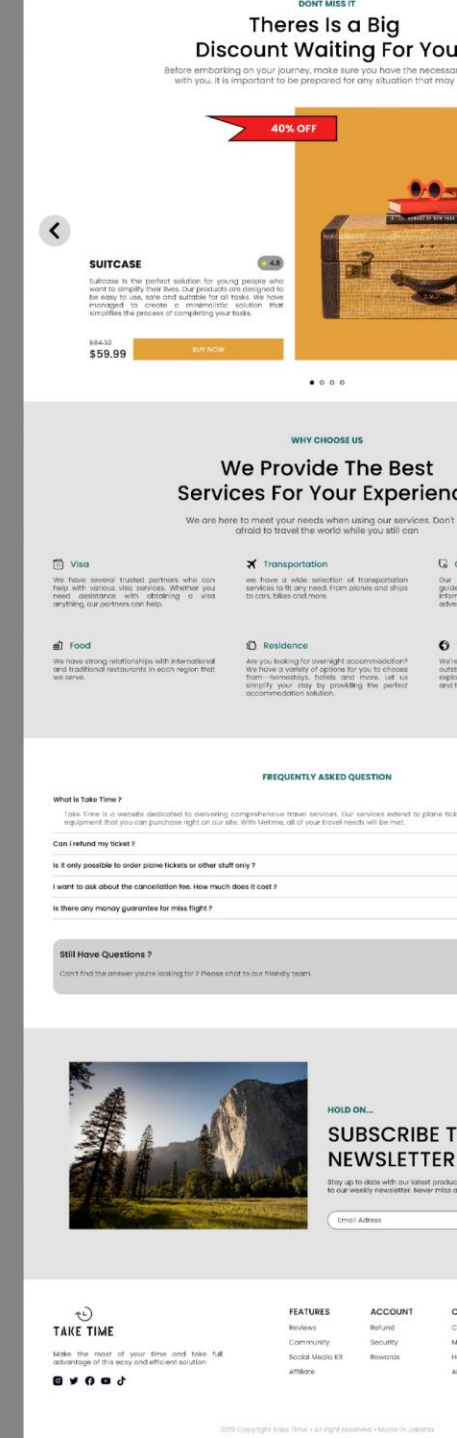

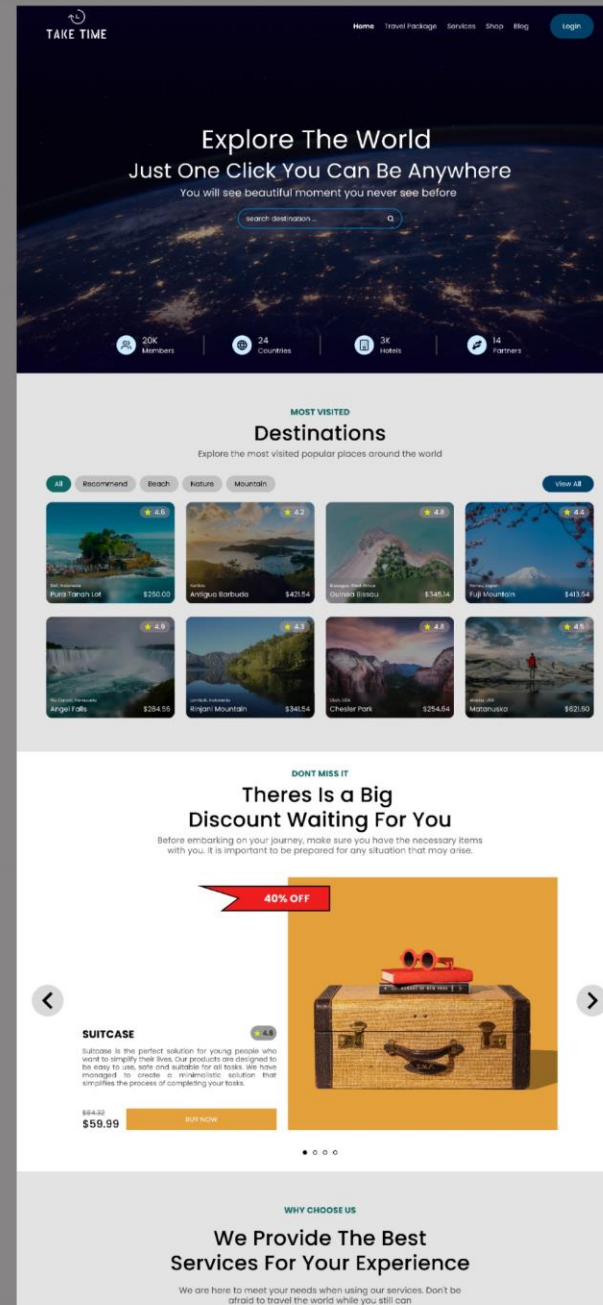

Take Time

2023 - Website

This is dummy project

Take Time is a website design dedicated to delivering comprehensive travel services. Our services extend to plane tickets, hotels, and visas as well as travel equipment that you can purchase right on our site. With Metime, all of your travel needs will be met.
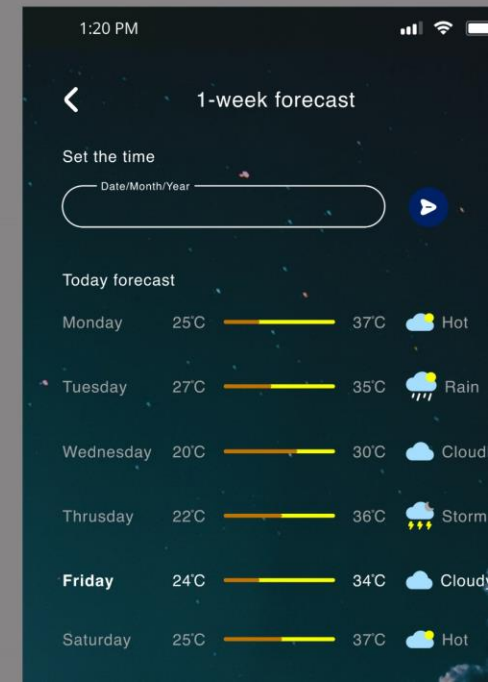

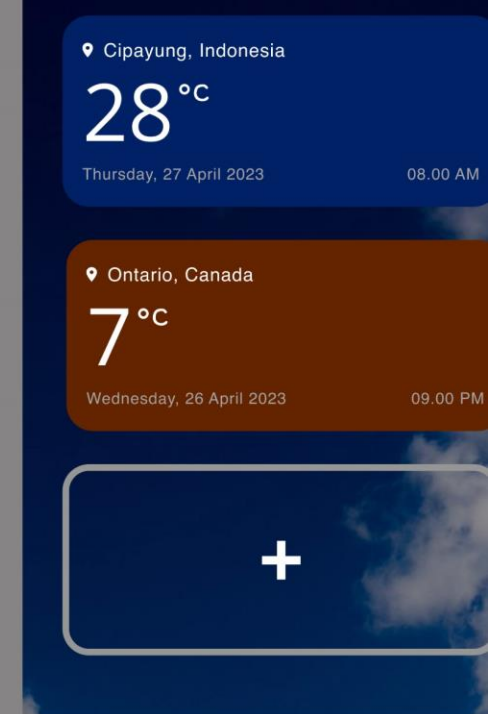

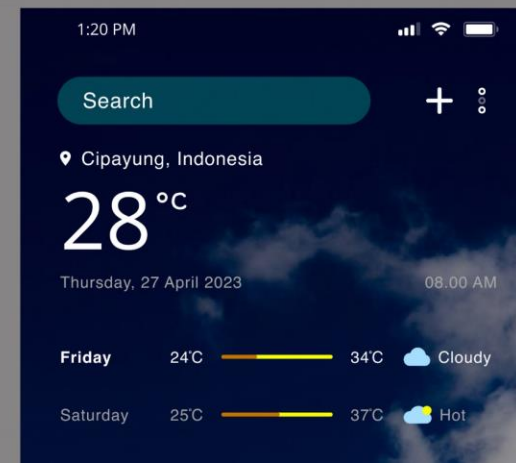

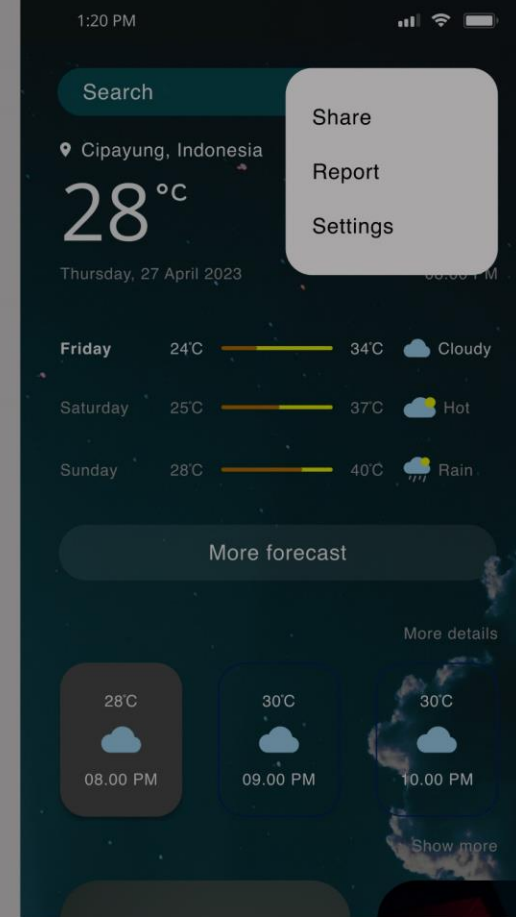

Weather App

2023 - Mobile

This is dummy project

The weather application design is a popular app that provides real-time weather forecasts. There are two modes in this design, namely light and dark modes.

Thank you for your time
